Welch, Harold J	Lahey Clinic: Burlington Campus	10
Whitten, Richard H	UMass Memorial Medical Center	12
<p><b>Notes:</b> Data are from DHCFP Hospital Discharge Data for FY2005. Surgeons are not listed if they performed fewer than 10 procedures statewide in 2005. Surgeries performed in US government hospitals (e.g., Veteran's Affairs (VA) hospitals) are not included in these numbers.</p> <p><b>ICD-9-CM Definition:</b> Discharges for the volume calculation were determined based on the ICD-9-CM procedure codes of 38.34 – resection of aorta with anastomosis, 38.44 – resection of abdominal aorta with replacement, 38.64 – other excision of aorta, 39.25 – aorta-iliac-femoral bypass, or 39.71 – endovascular implantation of graft in abdominal aorta. <b>Hospital volume</b> was determined by the presence of the procedure codes in <b>any</b> of the procedure fields with each patient being counted only once. <b>Physician volume</b> was determined by the presence of the procedure codes in the <b>primary</b> procedure field only.</p>
